

Model 2300 No-Till Drills

ISO9001:2015 certified

Our Tradition is Quality Driven and Field Proven

2300 Series No-Till Drills

Available in 5, 7, 10 and 15 ft.

Remlinger 2300 Series No-Till Drills

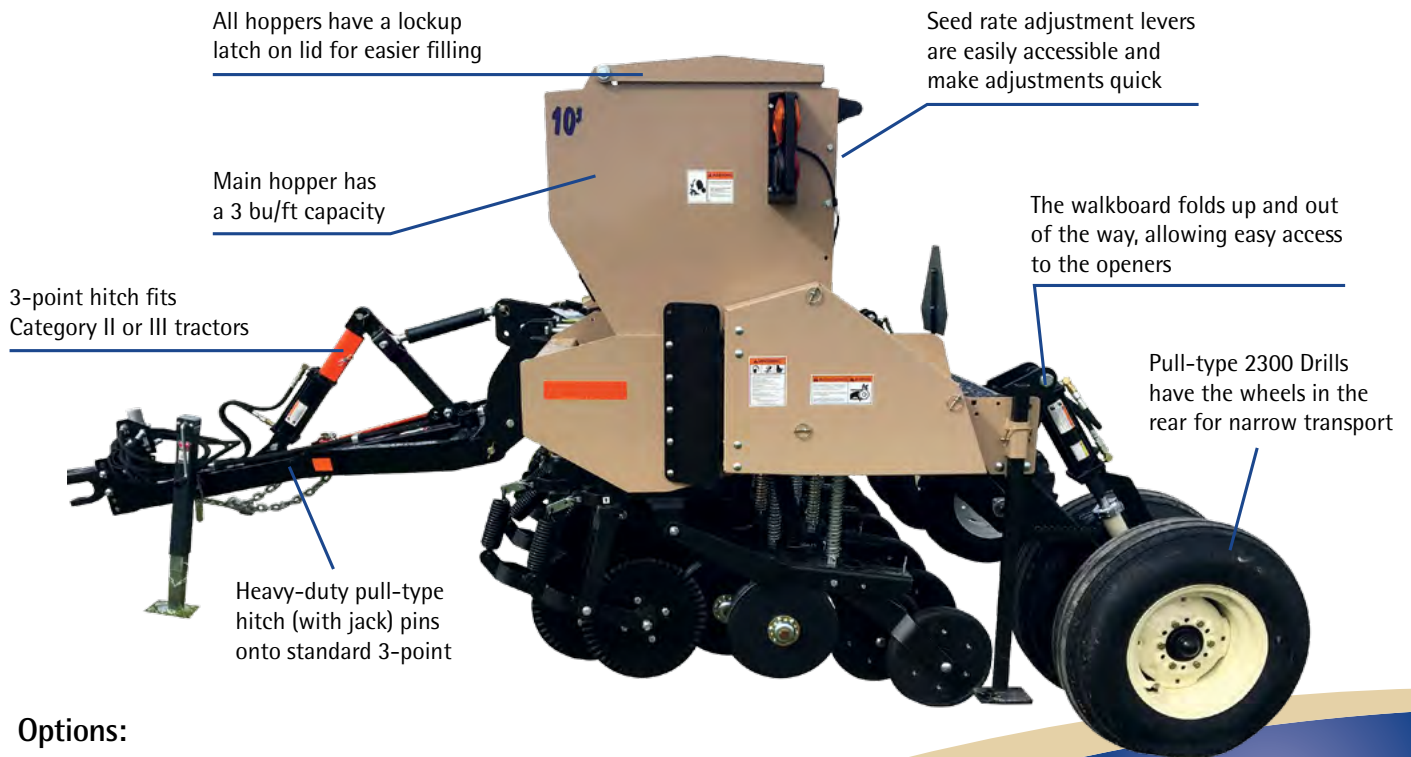

- 3 pt. or pull type units • 5', 7', 10' and 15' sizes • No-Till • Convert to conventional from no-till by pulling one pin
- Native grass seed hopper, meters, seed tube available • Main hopper 3 bu/ft capacity • 7-1/2" spacing

Heavy duty double disk, staggered mounting (6"), Quick T handle depth adjustment, 2 x 13 press wheels.

Pull this pin on each row to remove no-till coulters. This converts drill from no-till to conventional.

All hoppers have a lockup latch on lid for easier filling

Seed rate adjustment levers are easily accessible and make adjustments quick

Main hopper has a 3 bu/ft capacity

The walkboard folds up and out of the way, allowing easy access to the openers

3-point hitch fits Category II or III tractors

Pull-type 2300 Drills have the wheels in the rear for narrow transport

Heavy-duty pull-type hitch (with jack) pins onto standard 3-point

Options:

- Native Grass hopper with 1.26 bu/ft capacity
- Small Seed hopper with 0.27 bu/ft capacity
