Hydraulic Roller Control

For Single Roller Harrow on Discs

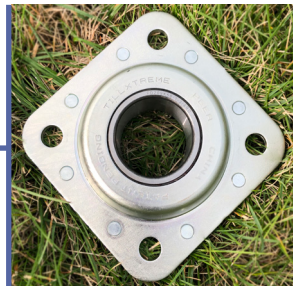
Hydraulic Roller Control for Single Roller Harrow on Discs

- *harrow rolls up out of the ground if you don't want to use it for the first pass*
- *easily adjust the down pressure of the rollers with the tractor hydraulics versus adjusting the spring tension*
- *kit available to convert older Remlinger single roller harrows on discs to the new hydraulic style*

Unmatched Ease and Convenience

Single roller harrow on discs from Remlinger Manufacturing are now available with hydraulic control. This new control allows a farmer to roll the harrow up out of the ground if he doesn't want to use it for the first pass. It also allows the farmer to easily adjust the down pressure of the rollers with the tractor hydraulics versus adjusting the spring tension, which is how it's currently changed. A kit is also available to convert older Remlinger single roller harrows on discs to the new hydraulic style.

New Tillxtreme Bearing



Double roller hydraulic control also available!
