Ninja Crimper

Rugged, Heavy Duty Cover Crop Crimper

Simple & Effective Cover Crop Management Tool

Available sizes range from 5' to 20' in rigid and folding models

You'll love the Ninja Crimper - Here's why:

With increased demand for organic foods and a decrease in herbicide supplies, the need for a dependable cover crop crimper has never been greater.

While working with no-till and organic farmers in search of a solution to manage cover crops without tillage or the use of chemicals, the Ninja was born.

Available in a variety of sizes and configurations, the Ninja Roller Crimper features 3/8" thick chevron pattern blades for smooth rolling and heavier bearings than competitors.

Its chevron blades roll smooth and lay residue down to the ground before crimping. The laid down residue will form a weed suppressing mat, conserve soil moisture, and increase organic matter.

- Innovative Blade Design
- High Quality Gloss Black & Tan Paint
- High Point Load at Blade Edge
- Adjustable Weight (Add/Remove Water)
- Oversized Heavy Duty Greaseable Bearings
- Low Maintenance
- Standard Light Kit
